Maximum insurance-allowed frequency — replace sooner only if worn; later is fine if it still seals well.

You Need a Prescription

Supplies are only covered with a current doctor's order on file (usually valid ~12 months). If it's expired, ask your sleep clinic to renew it.

Use Only What You Need

- Check current supplies for wear before reordering
- Don't stockpile parts you haven't used yet
- **Less waste = real dollars saved**

Check Your Bill — You Have a Choice

Automatic billing does not mean automatic obligation.
